Project: Currency converter

The screenshot shows a GitHub repository for 'Currency_Converter_Bot'. The file 'index.html' is selected, displaying JavaScript code. The code includes functions for converting currency, fetching rates, and toggling a chatbot. It uses the 'exchangerate-api' for live data.

```
326 async function convertCurrency() {
327   const amount = parseFloat(document.getElementById('amount').value);
328   const fromCurrency = document.getElementById('from_currency').value;
329   const toCurrency = document.getElementById('to_currency').value;
330   if (isNaN(amount) || fromCurrency === "" || toCurrency === "") {
331     document.getElementById('result').innerText = "❌ Please fill all fields correctly.";
332     return;
333   }
334   const apiKey = '14878b3a97fb88133bbae8b4';
335   const url = `https://v6.exchangerate-api.com/v6/${apiKey}/pair/${fromCurrency}/${toCurrency}/${amount}`;
336   try {
337     const response = await fetch(url);
338     const data = await response.json();
339     if (data.result === "success") {
340       document.getElementById('result').innerText = "✅ Converted Amount: ${data.conversion_result} ${toCurrency}";
341     } else {
342       document.getElementById('result').innerText = "❌ Failed to fetch conversion rate.";
343     }
344   } catch (error) {
345     document.getElementById('result').innerText = "❌ Error fetching data.";
346     console.error(error);
347   }
348 }
349 function toggleChatbot() {
350   const chatbot = document.getElementById('chatbot');
351   chatbot.classList.toggle('hidden');
352 }
353 async function fetchCurrencyRate(baseCurrency, targetCurrency) {
354   const apiKey = '14878b3a97fb88133bbae8b4';
355   const url = `https://v6.exchangerate-api.com/v6/${apiKey}/pair/${baseCurrency}/${targetCurrency}`;
356   try {
```

The screenshot shows the web application interface for the 'Currency Converter'. It features a navigation bar with links: Home, About Us, Live, Converter, Help, Login, and Register. The main heading is 'Currency Converter' with the subtitle 'Check live foreign currency exchange rates'. The central form is titled 'Currency Converter' and includes three input fields: 'From Currency:' (set to USD), 'To Currency:' (set to USD), and 'Amount:' (with a placeholder 'Enter amount'). A blue 'Convert' button is at the bottom of the form. A small blue chatbot icon is visible in the bottom right corner.
